

Hadley Park

Arden, North Carolina

Neighborhood Parking Safety Guidelines

- We ask each neighbor to use their garage and driveway for family parking.
- For overflow and guest parking, please restrict your use of parking spaces as described in the neighborhood plan provided, which designates in **green** what we believe to be safe parking.
- We ask that there never be two cars parked opposite one another on the same street. Park on one side only. This is a safety issue. Emergency vehicles must be able to easily access every home.
- Please never park directly across from a neighbor's driveway.
- Please have no street side parking on Briar Creek Way.
- Please never park on the grass anywhere in the neighborhood.
